EXPLORE. LEARN. FLOURISH. HAVE FUN.

Join fellow engaged, idea-driven students from around the globe as you dig in—sometimes literally—to a **Summer Session** program at one of the world’s great intellectual destinations.

“This summer you can explore the world of economics, conduct meaningful research, analyze 52-million-year-old fossils, and enjoy the excitement of college life. When classes are done for the day, you and your friends from around the world can experience the splendor of Chicago in the summertime.

SUMMER.UCHICAGO.EDU
All Summer Session programs are designed for high school students ready to tackle undergraduate-level material.

**Pathways**
Explore a cutting-edge field of study not often covered in high school curricula. Take advantage of the unique resources available at UChicago as each course offers broad exposure to a variety of topics and perspectives within a particular subject. Engage in lectures, discussions, and other activities that feature multiple faculty instructors and other practitioners in the field. Pathways courses are available in Economics, Human Rights, Molecular Engineering, Data Science, and more.

**Immersion**
Through labs, discussions, field observations, and other hands-on activities, immerse yourself within a specific topic through these three-week long undergraduate-level intensive courses designed for pre-college students by UChicago faculty and instructors. Course subjects include international relations, developmental psychology, philosophy, biotechnology, physics, and more.

**Summer College**
Rising high school seniors can challenge themselves by taking undergraduate courses alongside UChicago and visiting undergraduate students. Experience UChicago’s distinctively rigorous and engaging classroom environment with intellectual peers from around the world.

Research in the Biological Sciences (RIBS): Dive into a range of molecular, microbiological, and cellular biological techniques used in research laboratories and document your work through lab notebooks and peer presentations.

Stones and Bones: Go behind the scenes at the Field Museum—one of the world’s great natural history museums—and into the field to learn how fossils are collected, analyzed, and conserved.

Neubauer Family Adelante Summer Scholars: High school juniors engaged in Hispanic/Latino communities can apply to participate in select Summer Session courses free of charge.

UChicago Summer Scholars: Black/African American high school juniors can apply to participate in a select Summer Session course free of charge.

Admissions Academy: Students can take part in the Admissions Academy—workshops that help students gain insight into the holistic admissions process and preparing college applications.

Visit our website at summer.uchicago.edu for the most up-to-date information and a full list of course offerings.

**SEE CHICAGO YOURSELF!**
UChicago’s Summer Session programs attract students from all over the world. Make amazing connections this summer with peers both in class and beyond the classroom, over a cup of coffee or a picnic lunch on the main quad of UChicago’s beautiful gothic, ivy-covered campus. Together, you and your peers can share in the outdoor music festivals, Chicago river tours, and afternoons on Lake Michigan’s shores that round out summertime in Chicago.

“**The Pathway program** was everything I was hoping for and more. I enjoyed all of the topics covered during lectures and discussion sections, as well as meeting people who were as curious and interested in learning as I am. The lectures allowed me to understand how a proper college education works, and the level at which they are taught.”
