Intramurals & Club Sports

Clubs are led by students and funded by the University. There are nearly 40 different athletic clubs with hundreds of participants annually. Sports clubs are organized primarily to engage in competition with teams at other colleges and universities, while recreational clubs place emphasis on the acquisition of skills and strategies with little or no intercollegiate competition.

The Intramural Sports Program at the University of Chicago offers opportunities for everyone to take an active role in sports by providing an arena in which College Houses can compete against one another in a friendly environment. Intramural sports—more than 30 in all—are offered in each quarter of the academic year.
