

## A liberal arts college in the midst of a world-renowned research university,

the University of Chicago offers a dynamic and well-rounded education, one where students encounter great thinkers, sharpen critical thinking skills, and **engage in the life of the mind**. UChicago is a global leader in scientific advancement and plays a pivotal role as a hub for innovation in quantum science and engineering. Our commitment to free expression encourages academic exploration and open discussion on our campus. We're intent on changing the world by asking tough questions, celebrating new ideas, and forming a community of scholars—one as supportive as it is transformative.

UChicago and its namesake city are inextricably linked. With over 9 million people in the Chicagoland area, Chicago is a center of global cultures, international commerce, the arts, and pizza. And with the city center just a 20-minute ride away from our cozy Hyde Park neighborhood, the city becomes an integral part of your UChicago experience.

### ACADEMICS

UChicago's **Core curriculum** is your introduction to the tools of inquiry used in every discipline—natural and mathematical sciences, humanities, and social sciences. Core classes, which account for about 1/3 of your undergraduate coursework, are small, discussion-based sessions focused on the reading of primary texts. We provide the intellectual groundwork; you define the boundaries.

5:1 student-to-faculty ratio

over 50 majors and 50 minors

more than 60 study abroad programs

19 or fewer students in a Core discussion class

### RESEARCH

**80% of UChicago students choose to do research**, building on a tradition of world-changing discoveries. And there's a lot to choose from: the Pritzker School of Molecular

160+ research centers, institutes, and committees

**\$600+**  
million in sponsored research annually

Engineering turns a traditional engineering education on its head; the Marine Biological Laboratory in Woods Hole, MA, allows students to explore biodiversity in a location dedicated to scientific discovery; and two National Laboratories (Argonne and Fermilab) offer students close involvement with groundbreaking work in the fields of physics, engineering, and energy.

### WORLD-CHANGING UCHICAGO BREAKTHROUGHS:
